## Description

Control device and switching UUK designed to control connecting and disconnecting of the devices included in the systems of the guard-fire signaling, and switching of actuators (lamps, sirens, video cameras, fire suppression systems, electromagnetic locks, etc.) to the AC mains with a nominal voltage of 220 V or the DC power source 30 V by closing or opening the relay contacts

## Electrical characteristics

| Switching current | $\leq 8 \mathrm{~A}$ |
| :---: | :---: |
| Switching AC voltage | $\leq 250$ V (power $\geq 2 \mathrm{~kW}$ ) |
| Switching DA voltage | $\leq 30 \mathrm{~V}$ (power $\geq 240 \mathrm{~W}$ ) |
| Rated voltage on the device control coil | $12 \mathrm{~V} \pm 10 \%$, $24 \mathrm{~V} \pm 10 \%$ |
| Current of the control relay coil of the device is no more than | 55 mA |
| Overall dimensions of the UUK device no more than | 85x62x42 mm |
| Weight of the device is not more than | 120 g |
| Operating temperature | $-30 \ldots+50^{0} \mathrm{C}$ |

| Type of performance | Number of <br> executive relays | Voltage on the control coil | Type of terminal, cross-section of <br> connecting cable |
| :--- | :--- | :--- | :--- |
| UUK-12-02 | 2 | 12 V | DG3 to 1,5mm |
| UUK-24-02 | 2 | 24 V | DG3 to 1,5mm |
